1 PANDAS EXPORT DATA FILES WORKBOOK

Have a go at the following questions to practice your new found skills.

If you have any questions, go back to the course videos and have another look. One version of the answers is available in the next download. Remember, there are different ways to write code to get the same answer, so your answer can be correct and different to the answer example!

If you feel stuck and want some in person help, then have a look at the events page to join in a workshop <https://swamphen.co.uk/events>.

```
In [2]: # go back to your pandas combinng data frames work
        # export test_full as a csv file
```

```
In [ ]: # go back to your pandas basic data cleaning work
        # export iot as a txt file
```

```
In [ ]: # still in your pandas basic data cleaning work
        # export the titanic data with the average age inserted instead of a nan data
        # as an excel file
```

```
In [1]: # if you just want to look at the information produced
        # what file structure would youchoose?
```

```
In [ ]: # if you want to give this file to someone else what format
        # would you choose?
```
