1 PYTHON SELECTING ACTIONS IF STATEMENTS WORKBOOK

Have a go at the following questions to practice your new found skills.

If you have any questions, go back to the course videos and have another look. One version of the answers is available in the next download. Remember, there are different ways to write code to get the same answer, so your answer can be correct and different to the answer example!

If you feel stuck and want some in person help, then have a look at the events page to join in a workshop <https://swamphen.co.uk/events>.

In [1]: *# define a list of 5 strings*

In [4]: *# is the second element longer than the fourth element?*

In [1]: *# is the third element longer than the zeroth element?*

In [2]: *# is there an a in the first element?*

In [3]: *# show that a day at the races was released in the fourth quarter
of the 1900s
(it was released in 1976)*
